and Records Authorities

## Archival Statistics 2009-2010

### Background

The Council of Australasian Archives and Records Authorities (CAARA) collects statistics about its member institutions. CAARA members complete surveys on an annual basis.

The current survey for the year ending 30 June 2010 was undertaken by the State Records Authority of New South Wales and covers the 10 CAARA members.

### Survey Process

All CAARA members responded.

The survey was identical to the previous 2009 survey. Questions were consistent with previous years to allow for comparisons.

### Results

Tables summarising the statistical responses from CAARA members are on pages 3-7.

The gaps that occur in some sections of the tables are a result of members not having the information available to answer the question accurately. Some of these gaps are explained in the notes on pages 8-9.

To benchmark the results, time series data analyses were completed for 1996-2010 and these are shown on pages 10-17.

### Observations on Selected Results

- **Holdings**

From 2009 to 2010, there was a 1.63% increase in holdings. This compares to an increase of 12.64% the previous year. Most members recorded a steady increase in holdings during the period with the Territory Records Office (ACT) recording an exceptionally large increase of 249%.

Since 1996, the total quantity of holdings for CAARA members has increased by 84%. During this period, State Records (SA) and Public Record Office (Vic) have recorded the largest increase of holdings amongst members and the Territory Records Office (ACT) has recorded the larger increase in more recent years.

- **Reference services**

From 2009 to 2010, most CAARA members recorded small increases in visits to their reading rooms. This is in contrast to the previous year where most CAARA members recorded small decreases. The exception to this trend was the Archives Office of Tasmania which recorded a considerable decrease from 2009 to 2010. There has been an overall decrease of 8.58% in visits to reading rooms.

The number of original items made available in reading rooms has decreased by 34% since 1996. From 2009 to 2010 there was a decrease of 20%.

Enquiries received in all forms have increased by 57% since 1996. The trend for the increased number of enquiries peaked in 2003 but has since shown a decline. From 2009 to 2010, there was a continued decrease of 20% in enquiries received.

- **Online access**

Website statistics have only been included in the CAARA survey since 2001. Since 2001, there has been a substantial increase of 545% in the number of "unique visits" to member websites. However, from 2009 to 2010 there was a 15.1% decrease in unique visits to CAARA websites.

- **Staff**

The number of staff has increased by 24% since 1996. The trend for the number of staff to increase continued from 2009 to 2010 with an increase of 12.8% recorded.
